Vigorous young cutting grown plants, in the smaller sizes, probably offer the best value for your Rhododendron dollar. Most of our budded plants, to which this spring, are sold out.

All plants are shipped with a good ball of soil so may be moved quite late if given a little shade and kept well watered. However the earlier they are planted the better growth they will make.

Indicate sizes desired by letters; May Day d, would mean a 12 to 15 inch plant without flower buds, May Day D., same size, with flower buds. The letters following each variety indicate the sizes available when this list was prepared.

'y' plants, available in most varieties, are one year old from cutting and were set in the lath house last June. These small plants provide an easy way to build up a collection.
